SUMMARY

I have over a year experience as a front-end developer, proficient in JavaScript, TypeScript, React and Redux, with hands-on experience in REST APIs and Git. Certified at B2+ English proficiency (EF SET), I excel in task delegation, client communication, and enhancing team efficiency through innovative solutions. Passionate about solving challenges, I focus on delivering impactful solutions that drive product success.

SKILLS

- Typescript, JavaScript
- React, Redux-toolkit
- HTML5, CSS3, Sass (SCSS), BEM
- Fetch, REST API, Web sockets
- Git Webpack, Vite, Babel, Eslint, Prettier
- Basic OOP understanding, basic Java knowledge
- Knowledge of SDLC, Waterfall, Agile concepts (Scrum, Kanban)
- English: Upper-Intermediate

EDUCATION

Bogomolets National Medical University

Master's Degree in Medicine

2018 – 2024

ADDITIONAL EDUCATION

- Front-end course at Mate academy (Git, HTML, CSS, JavaScript, TypeScript, React, Web)
- Reactjs.org
- Book: You Don't Know JS — Kyle Simpson
- SavchukIT — JavaScript Basics for Beginners

EXPERIENCE

Frontend Developer (React) — DIKO, Nov 2024 – Nov 2025

- Technologies: React + TypeScript, React Context, Redux Toolkit, React Router, react-i18next, react-slick, react-zoom-pan-pinch, SCSS, Vite
- Architected the project structure from scratch and set up core infrastructure: Redux (Redux Toolkit patterns), React Router and react-i18next for localization.
 - Implemented the global header (sticky, hover behavior) and footer, including language and currency switchers.
 - Built product page, cart (add/remove, quantities, totals) and currency-change logic; persisted client-side data with localStorage.
 - Developed all Collectors Club pages and most sliders (implemented with react-slick).
 - Implemented image zoom/pan interactions using react-zoom-pan-pinch.
 - Built reveal-on-scroll animations and many site-wide smooth interactions (hover/active states, route scroll-to-top).
 - Wrote reusable components, custom hooks, and integrated useState / useRef patterns across the app.
 - Collaborated closely with another frontend developer (who implemented the Expertise page, Account area with 6 tabs, Market page and its sliders) and a designer; participated in code reviews and client demos.

OTHER EXPERIENCE

Medical Services Coordinator, Jun 2021 – Oct 2023

- Scheduled and coordinated client appointments with partner clinics.
- Served as a shift leader, managing and delegating tasks to teams of 3–12 coordinators.
- Optimized internal clinic maps, improving coordination efficiency by approximately 20%.
